SwimSafer Programme Email Address

sport_swimsafer@sport.gov.sg

SwimSafer is a national water safety programme in Singapore introduced in July 2010 by the National Water Safety Council (NWSC), a council appointed by the then Ministry of Community, Youth and Sports (MCYS). In 2013, NWSC transferred full ownership of SwimSafer to the Singapore Sports Council (SSC). In 2014 Manulife extended their sponsorship to Singapore Sports Council to promote SwimSafer for 3 years.

The SwimSafer programme consists of six progressive stages, each comprising 12 hours of lesson time. Survival and activity skills are taught in each stage of the programme, working progressively toward the next stage.

At the end of each stage, each child will receive a stage completion certificate indicating his/ her individual skill achievements. A badge will be awarded upon the completion of each stage.

In addition, each child will be awarded a coloured pin upon completion of each stage 4 to 6. Currently, the Singapore Lifesaving Society (SLSS) acts as SwimSafer's Secretariat, dealing with matters of assessment administrations.

SwimSafer is a national water safety programme introduced by the [National Water Safety Council \(NWSC\)](#) in July 2010 which combines both the National Survival Swimming Award (NASSA) and the Learn-To-Swim Programme (LTSP) into a progressive six-stage programme.

At the end of each stage, each child will receive a stage completion certificate indicating his/her individual skill achievements. A badge will be awarded upon the completion of each stage.

In addition, each child will be awarded a coloured pin upon completion of each stages 4 to 6.

[More about SwimSafer...](#)

Swim Safer is a national programme in Singapore, introduced by the [National Water Safety Council \(NWSC\)](#) that instructs both [swimming](#) proficiency and water survival skills is necessary in view of more than 65% of drowning incidences in Singapore (from 2005 to 2008) occurring in the seas, rivers and reservoirs.

SwimSafer Stage 1: Introduction to Water Skills (Swimming)

The objective is for your child to gain confidence and develop independence in the water, as well as learn general and deep-end water safety. Techniques taught includes forward and backward movement, safe entry and exit, and introduction to personal water survival skills.
